

**Table 2. Forage Response To Weed Control And Fertilizer  
Texas A&M University Trials, 1990-91<sup>2</sup>**

<b>Treatment</b>	<b>Dry Matter Lbs./Acre</b>			
	<b>1990 (Dry Year)</b>		<b>1991 (Wet Year)</b>	
	<b>Grass</b>	<b>Weeds</b>	<b>Grass</b>	<b>Weeds</b>
<b><u>With Fertilizer</u></b>				
Early herbicide	2,142	209	8,323	-0-
Late herbicide	881	333	7,610	1,494
Shredding weeds	577	1,078	5,089	2,208
No weed treatment, fertilizer only	645	1,698	2,587	7,452
<b><u>No Fertilizer</u></b>				
Early herbicide	1,330	202	4,987	-0-
Late herbicide	477	377	4,898	1,266
Shredding weeds	341	761	4,787	998
Control, no weed control or fertilizer	377	1,127	1,385	4,252
